<td>Global Witness (GW)</td>
<td>[MONITORING] 7 October 2021: GW released a public report titled ‘The True Price of Palm Oil’. The allegations on RH in this report are largely similar to the letter that was sent to Wilmar’s customers in July 2021. The report, however, contains additional information related to RH’s health and safety practices. Our supplier, Wilmar, continues to monitor and investigate the remaining issues related to worker PPE Provision and RH’s safety and health practices, and will guide RH towards resolution of this case. More info can be found here: <a href="https://www.wilmar-international.com/sustainability/grievance-procedure">https://www.wilmar-international.com/sustainability/grievance-procedure</a></td>
</tr>
</tbody>

July 2021: A letter was sent to Wilmar’s customers from the NGO Global Witness (GW), alleging environmental and social non-compliance incidents by Rimbunan Hijau (RH). A summary of the allegations in the letter were as follows:
- Environmental degradation and deforestation activities;
- Violence and harassment against community members, through local police;
- Lack of Free, Prior, Informed Consent (FPIC) prior to development of land;
- Decent accommodation and facility for employees living in company housing; and
- Workers’ health and safety.

Wilmar immediately reached out to RH for clarification on the issues raised by GW, and has been actively engaging with the company since. RH has rebutted the allegations and provided us with all relevant documents which include:
- A field visit report by an independent consultant;
- Evidence of engagements between RH and GW since 2017;
- Landowner consent forms to ascertain FPIC and identify cultural sites that require protection;
- Voluntarily written statements by a landowner, contents of which were further corroborated by a statement given by a local ward councillor;
- Correspondence between Gilford Ltd and the Royal Papua New Guinea (PNG) Constabulary;
- Board meeting minutes by landowner companies; and
- A mediated agreement between Gilford Ltd and a landowner company issued

<td>[MONITORING] 3 May 2021: Our supplier, GAR contacted BGP to seek feedback on the deforestation allegation against PT BAP. 4 May 2021: BGP confirmed that currently it is carrying out land development at PT BAP. As per GAR policy/GSEP, they urged BGP to immediately issue a moratorium statement on PT BAP followed by HCS/HCV study and HCSA/HCVRN peer review. 7 May 2021: PT BAP has agreed on a land clearing moratorium effective 17 May 2021. See PT BAP commitment letter on the moratorium here <a href="https://bit.ly/2PVdW2f">https://bit.ly/2PVdW2f</a>. 10 May 2021: Our supplier, Wilmar initiated engagement with PT BGP via a virtual meeting, seeking clarification and documentation evidences of PT BGP’s operation. PT Bumi Agro Prima clarified that there was no deforestation taken place as the area was planted with other crops prior converting to palm. Supporting documentation and photos had been submitted to prove their claim, where it was found that the vegetation on the ground consists of mixture of other crops, which is mostly rubber. To ensure that their activities are aligned with the NDPE requirement, the supplier has also agreed to commit to moratorium since May 2021 and engage a license assessor to conduct HCV-HCS assessment. 3 May 2021: The report claimed that PT Bumi Agro Prima, a subsidiary of Bumi Gading Prima Group of clearing 25ha of forest between October 2020 to March 2021. Our supplier, Apical sought clarification from Bumi Gading Prima regarding the issue. For info, Apical do not source directly from PT Bumi Agro Prima. In a response, BGP committed to stop land clearing.</td>

| 22 December 2020: | Respondent submitted additional documents on GIS Analysis: [GIS Analysis](https://rspo.my.salesforce.com/sfc/p/#90000000Yo/Ji/al0o00000i20g/yQaIUrB2FpGy.7MKF1_jzCxPfEqcVtKJQaHpxLA4)
25 November 2020: The Complainants have provided their response on the
difference on the hectarage clearance.
Pending confirmation from the GIS team.

October 2020: Case is currently being handled by the RSPO Complaints
Panel. The Secretariat is waiting for a response from the Respondent on the
issues pertaining land clearing and the final remark from the GIS team.

April 2020: The key points of GAR’s response to the FPP complaints to the
RSPO are as follows:

1. Allegation that GAR failed to secure necessary permits for eight (8)
concessions in Central Kalimantan: the complex issue of obtaining permits in
Indonesia affects all companies and is not peculiar to GAR. It is also a
well-known issue to stakeholders including the RSPO. GAR has submitted
evidence of the various legal changes that have occurred over the years re the
allocation and designation of land for palm oil plantations. Through all the
legislative changes, GAR and its subsidiaries have complied with the
applicable and valid regulations at the time and have therefore been operating
legally

2. Allegation that GAR and its subsidiaries failed to comply with RSPO New
Planting Procedures: this is factually incorrect and without basis. GAR has
submitted a list of documents verified by the RSPO certification body and
submitted to the RSPO in 2014. In addition, GAR highlighted that the only new
planting since 2014 has been to fulfil plasma development for the community.
In this, GAR has also filed all the necessary documentation for the plasma
development.

3. Allegation of unethical behaviour by GAR: the claims by FPP are factually
incorrect. Since October 2018 when the corruption case was instigated GAR
and its subsidiary PT BAP have been transparent about the case, the fact that
the individuals in question acted of their own accord and in breach of the
company’s Code of Conduct. This was proven in the decision of the Jakarta
Corruption Court which also ruled that the incident reflected the actions of a
few individuals in breach of Government Regulations as well as GAR’s own
Code of Conduct. Neither GAR not PT BAP were parties to the case.
Therefore, claims that either company acted unethically are without basis.

GAR awaits the deliberation of the Complaints Panel and hopes that there will
be a swift closure of this matter.

March 19: GAR acknowledges the findings of the Jakarta Corruption Court in

December 2019: EHP sent following clarification to GAR: EHP management stated it has no intention to open any new areas for palm oil development due to its new planting moratorium since 2017 and Inpres 8/2018. The company does not willfully conduct any form of deforestation. The alleged deforestation occurred due to fire incidents caused by extreme dry weather conditions in Indonesia. PT AER was affected by fires that spread from beyond its concession area. EHP told GAR that fire prevention and management measures as per existing SOPs have been implemented at PT AER.

| 7 | Wilmar | Direct supplier | Friends of the Earth Netherlands |

[MONITORING] May 2021: Earthworm Foundation Report 5: Wilmar’s Operations Linked to Pasaman Barat Community, West Sumatra:
1. Resolution Process with the Koto Baru and Kinali Communities and PT PMJ
2. Communication with parties and community organizations in West Pasaman
3. Strengthening the Grievance Procedure

September 2020: Earthworm Foundation Report 4: Wilmar’s Operations Linked to Pasaman Barat Community, West Sumatra:

Initial checks on the list of suppliers indicated that PT Tidar Kerinchi Agung is not Wilmar’s supplier. PT Karya Agung Mega Utama (PT KAMU) is not a subsidiary under Wilmar International. Some of the cases are already logged into the RSPO Complaints mechanism. More details can be found here (Reference no: RSPO/2018/12/RB, RSPO/2018/06/RB, RSPO/2018/07/SW, R76).

Wilmar commissioned Earthworm Foundation (EF) in September 2018 to conduct a thorough evaluation of issues raised against Wilmar’s internal systems on social grievance and resolution at three of its subsidiaries in Pasaman Barat in West Sumatra - PT AMP Plantation, PT Gersindo Minang Plantation (GMP) and PT Primatama Mulia Jaya (PMJ).

Since November 2019, Wilmar reached out to all the companies to seek clarification on the allegations as part of the investigation. As the issue listed in the interim report are generic and similar for all groups, Wilmar is unable to
verify the cases without knowing the specific issues from the complainant. Wilmar had a meeting with FPP and Nagari Institute in November 2019 in Bangkok and it was agreed that a follow up meeting would be held to further discuss the issues and possible resolutions. A meeting with Nagari Institute in Padang on 11 February 2020 was held, and it was reiterated that in order to clearly seek resolution, it was important for Nagari Institute and FPP to provide more details in order for them to further investigate the cases and work towards the resolution. This did not need to have specific persons identified, rather details on the specific allegations. Nagari Institute was unable to share more information beyond the original interim report. However there was agreement to continue with a follow up meeting with Nagari Institute tentatively for March 2020. In the meantime, Wilmar continues to engage with both Nagari Institute and FPP.

</tbody>
</table>
conduct an assessment of FGV’s operations against the 11 International Labour Organization (ILO) Indicators of Forced Labour, as advised by the CBP.

FGV has identified an independent auditor to carry out the audit work and is currently working with a US-based legal counsel to finalise the terms and conditions for the appointment. In ensuring that the scope and methodology of the audit meet the requirements and expectations of the CBP, FGV foresees a slight delay in the appointment and expects to formalise the appointment by November 2021.

30 August 2021:

1 July 2021:

1 April 2021: FLA Assessment Report on the Implementation of FGV’s Action Plan to Enhance Labour Practices 3 key areas of focus as recommended by FLA; grievance mechanism, remediation procedures and worker representation structures

FGV is committed to resolving the matter with the CBP and will revisit the appointment of an independent firm in June 2021 for a comprehensive external audit on FGV’s labour practices, as suggested by the CBP.

27 January 2021: FGV has decided to take a systematic approach in ensuring that the rights of its workers are respected and protected, thereby eliminating practices that may be indicative of labour exploitation. This is to ensure that the best labour practices are observed in accordance with international standards throughout its entire operations. FGV has decided to revisit the appointment of an independent third-party audit firm for an audit of FGV’s operations after FGV is satisfied that all of the above measures have been strengthened and implemented accordingly, within six months. FGV will continue to engage with the CBP to keep them abreast of the various measures undertaken and its other ongoing initiatives pertaining to labour rights, and FGV is committed to resolving the matter as expeditiously as possible.

13 October 2020: FGV is not a direct supplier; however, Neste decided not to make any further purchases from supply chains that are verifiably traced back to FGV until the allegations by US Customs and Border Protection (CBP) have been sufficiently cleared. No further information about CBP's findings including nature or locations of any incidence were disclosed.

GAR

GAR

Mongabay

BBC

The Gecko Project

[MONITORING] An investigation conducted by The Gecko Project, BBC News and Mongabay reported that palm oil producers are failing to comply with legal obligations requiring them to share their plantations with communities. Neste is aware of the complex issues related to smallholder plasma in Indonesia. We have reached out to GAR to understand the allegation raised in the report. In responding to the report of Gecko Project, GAR had issued advisories outlining the process of plasma implementation in Indonesia and its challenges associated with plasma fulfilment as well as its good practices in mitigating the risks and its commitment towards fulfilling its outstanding plasma obligations. We will continue to engage with our supplier and to monitor their plasma development progress while at the same time, we continue to support smallholders projects to build the capacity and awareness of smallholders as we recognise that smallholders development is a key to more sustainable development of palm oil.

Since 2018, we have collaborated with several global brands, palm oil companies as well as non-governmental agencies to aim for a large-scale transformative sustainability impact in the Siak and Pelalawan regions in Indonesia, known as the Siak Pelalawan Landscape Programme (SPLP). The Siak and Pelalawan regions are home to more than 200 villages, with districts spreading over 2 million hectares. The program has helped protect forests, peat and biodiversity and support sustainability performance of smallholder farmers. The project kick-started with village-level engagements by identifying key sustainability related issues at the villages and capacity building of village facilitators. Various training on best management practices - including fire management and good agricultural practices were conducted. Read more about the project on Neste's website and the stories from the field on SPLP's website.
